THE PACE WE ARE SETTING.

We should never set a pace as a generation a community or a family that those coming on later would find difficult to follow Not unless the pace is in the right direction

Dothan as some one has expressed it is in a critical condition It is between a country town and a city

But one bad sign is cropping out We have too many people who feel that all cities have to put up with and countenance certain forms of vice

Back a dozen years ago we of this community like other communities, had some old fogies who thought it would be impossible to have a town of any size without the sale of liquor About the time this was disproved and discredited another set—and we still have them with us—pretended that we should tolerate certains forms of vice because it was known that most cities tolerated it

We have had men on the council who have often made the statement that lewd houses were necessary for society's protection

Such slack manner of reasoning is bringing fruit The kind that all good citizens should have expected and forseen

We have with us an element who think we ought to have the legalized sale of whiskey by saloons We have among us another element who think it shouldn't be sold at all and then we have still another element who believe in prohibition because *it makes the blind tiger business, as* encouraged at present a good thing

And then, we have still another class who think the dispensary the way to handle whiskey

Dothan had the first dispensary ever created in Alabama

It would have another, but for the fact that the powers that be couldn't agree on who should handle the funds

So we are now setting a pace for other towns We are licensing the blind tiger by a sort of a gentlemanly understanding that each operator shall be fined monthly a certain amount of money, simply because we need the money Other towns seeing how its done here are getting on the same basis And this a normally prohibition territory

What's the cause of it all?

Some will say you can't enforce prohibition laws, but we of this community know better We know that all we need is a man at the head of the state who will back up the laws and then men all along the line to mayors and chief of police who will do likewise

Why don't they do it as it is?

Hard question The governor will issue pardons when he is petitioned by some of the most influential men of our community, and we don't think as hard of him for it as some do It is the pace he sets for the other officers If he didn't do it they would probably do better and that is where some of the harm comes from nullifying the laws

We have plenty of laws All we need is a set of officials who feel it their duty to enforce them to the best of *their* ability

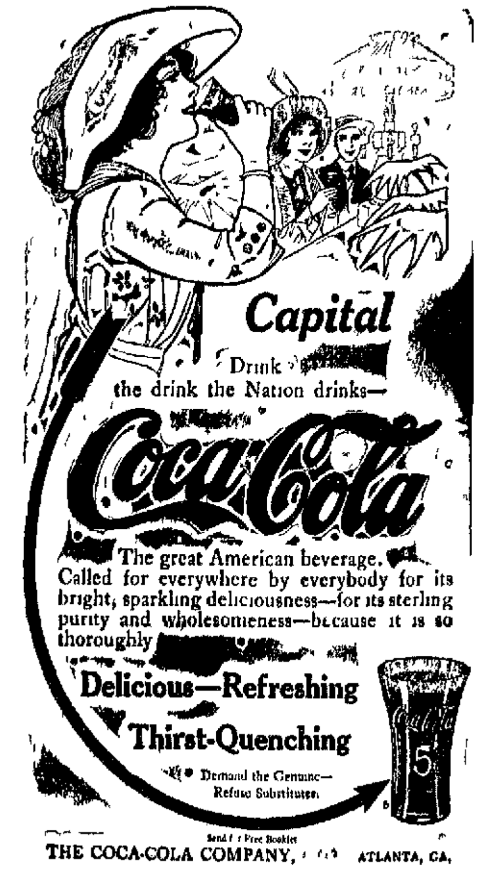

We put out the tigers in Dothan at one time We put out the bawdy houses These are big jobs and one putting out doesn't last A man or set of men must stay on the job and see that they are kept put

Because promiscuous pardons had been issued blind tiger operator the city officials thought it best to exact a toll from them and let them open again.

If there is any excuse for bringing the women back we haven't heard it unless they, as tenants bring good revenue for the property owners

Quite a pace this town is setting for our boys and girls

We don't believe they can live up to the pace we are setting, and come out unscorched there will be a blemish on their character that can not be effaced in years and years of careful training and education

BOYS AND VACATIONS

Then the sooner you get the vacation idea out of your boy's head the better it is We have too many boys who feel like they are entitled to a few weeks vacation as soon as school is out He may need it it's true but you let him start out early to taking vacations because he thinks he's tired and before he becomes of much importance to the institution *he hitches on to he* will want longer and more expensive vacations

When the boy gets out of school he does need a change Then pick out some manual labor for him and put him at it Let it require his early rising and early retiring, and it won't be but a few weeks before he will have so completely recovered from the arduous school days that you wouldn't know him

Any diversion from what you are doing, is all you need If you are expending too much mental force put your mind to work on some thing, else If too much muscle force then try mental work and less muscular exercise and the change will soon be noted

For the town boy who has been cooped up in school from eight thirty in the morning till two thirty in the afternoon with an hour off for dinner and recess thrown in all he needs ordinarily as a vacation is to go out and plow a mule from five in the morning till seven in the evening, with an hour under the mulberry tree at dinner *How boys an* men are killed from overwork

Bryan Likes Criticism

When Mr Bryan's attention was called to some criticisms that had been published in regard to his lecturing he replied as follows I am glad to have the criticism brought to my attention I believe in criticism of public officials Criticism is helpful If a man makes a mistake criticism enables him to correct it if he is unjustly criticised the criticism helps him I have been in public life but it has not prevented my doing what I thought proper to do In devoting a part of my vacation to lecturing I am doing what I believe to be proper and I have no fear whatever that any unbiased person will criticise me when he knows the facts Moultrie (Ga Observer

After the Refund

A druggist's bell rang loudly in the small hours and when he went down he was met by a placid man who asked for a bottle of soda water says the Houston Post The druggist's feelings were strong but he resolved to do business Ten cents extra for the bottle said he will be allowed on return And he went back to bed

Two hours later the night bell rang again Again the druggist went down Again he was met by the placid man There's your bottle said he gimme my 10 cents

Legions of Them

The present campaign against the hookworm in Craven county has seemingly made an impression on some of the young boys as it is right that it should says the Sylvania Telephone So when the Sunday School teacher the other morning had been explaining about the man having the legion of devils cast out of him into the swine and asked Now what was it this poor man had in him thousands of them a little boy on the end of the bench shouted out that he knew

Well Robbie tell us what it was?

Hookworms came the quick response

DR POWERS' CONDITION

Florence Ala, July 23—So many rumors and reports have been in circulation concerning the condition of Dr Powers president of the Florence State Normal school that the following official statement has been given to the press by the dean Dr I B Game

Many of the reports concerning the condition of Dr Powers are so inaccurate that he wishes me to give out this statement The trouble began with a carbuncle which covered the back of his neck Several incisions were necessary but at no time was there any trace of blood poisoning The entire treatment of the case by the attending and consulting physicians have been eminently skillful In addition to the carbuncle other complications several times became seriously threatening so much so that his family and friends feared that he could not recover However Dr Powers has made a hard fight and this has been greatly in his favor At this writing the carbuncles have about cleared up and the danger from that source is past The other complications have yielded to treatment and it is now in the main a question of regaining his strength He is cheerful and full of hope, and at the present outlook he will be himself again in a few weeks

Georgia Ministers In A Row Over "Our" Rev. Bob Jones

Opelika News

According to late dispatches from Cartersville Ga Rev Bob Jones is having trouble with the local pastors of that city In the reports from Cartersville it is stated that Rev Bob Jones held a meeting last year in the Tabernacle and received a cold reception from all but two of the local pastors His work was not only not endorsed by the pastors of the First Methodist Baptist and Presbyterian churches but was openly opposed

The attitude of the local ministers was displayed by those who were devotedly interested in the Tabernacle and criticised by others Much feeling was finally engendered by the situation which created sensation after sensation Finally it culminated in the withdrawal of Revs Hunnicutt and Long and Hall the pastors of the leading churches from the Tabernacle committee when a committee of citizens appointed in open meeting invited Rev Bob Jones to return this year

The opposition of the local pastors instead of decreasing as was hoped for by many increased as the days passed and when plans for the meeting were put in progress for this summer it was learned that Rev W T Hunnicutt had made up his mind and so expressed himself to prevent the coming of Jones He (Hunnicutt) had to resort to the exercise of the rights under the Methodist discipline of refusing to give his consent to the coming here of the Alabama evangelist

The attitude of Mr Hunnicutt was deeply deplored by many of his members and by people outside of his church who felt that Jones could accomplish much good in the [illegible] and [illegible] was presented to him urging him to remove his objections to the meeting in order that a union meeting might prevail and a great meeting be held It was explained to him that Bob Jones was coming merely at the [illegible] Smith who [illegible] [illegible] for the purpose of holding the [illegible] building [illegible] city and country [illegible] Jones

The emphatic refusal of Mr Hunnicutt to withdraw his objection [illegible] the [illegible] Methodist [illegible] [illegible] was not only opposed to Bob Jones but was out of sympathy with evangelists and evangelistic meetings He expressed himself as opposed to the [illegible] [illegible] and was quoted by [illegible] [illegible] the Tabernacle for good [illegible] Jones and the [illegible]

[illegible] Methodist Church [illegible] [illegible] the preaching [illegible] [illegible] and by all [illegible] [illegible] churches [illegible] [illegible] of which [illegible] [illegible] rector

"You can keep me from preaching, but thank God you can't keep me from praying," is the characteristic reply made by Rev Bob Jones the Alabama evangelist when informed of the opposition to him

Rev Lyspay Smith assisted by Mr Bob Jones and others will be in the meetings on Sunday August [illegible] and will conduct services three times each day until August [illegible]

Tip-Toe and Thou Shalt See Brightness Just on the Other Side of Sorrow.—

There's many a slip 'twixt the cup and the lip,
There's many a turn in the way
There's many a rock in the sea of life,
And many a cloud in a day
Tho thy heart's desire, no realm's gain
And the turns in the way confuse
Yea, rocks would shatter thy feeble craft,
And storms would end thy cruise
Some joy will soon outweigh thy grief,
The path will straighten again
The sea will deepen beyond the shoals,
And the sun gleam after the rain
If the lighthouse had fallen and wrecked itself
When a-oar 'twas lashed and blown
Ah! many a craft and many a life
Would have sunk to depths unknown
So be ye like to the mighty tower
Let thy heart be a light of love
A guide for thy brother around the rocks
To the harbor of rest above
—E. L. Gibson

A BIRTHDAY.

My heart is like a singing bird
Whose nest is in a watered shoot
My heart is like an apple tree
Whose boughs are bent with thickened fruit
My heart is like a rainbow shell
That paddles in a halcyon sea
My heart is gladder than all these
Because my love is come to me

Raise me a dais of silk and down
Hang it with vair and purple dyes
Carve it in doves and pomegranates,
And peacocks with a hundred eyes
Work it in gold and silver grapes
In leaves and silver fleur de lys
Because the birthday of my life
Is come, my love is come to me
